---------------------------------	-------------------------	-------------------------	-------------------------	-------------------------

1 ACC did accept animals from out of county/coalition, but did not capture that category in their statistics.

2 Includes feral cats intaked by ACC then transferred to SF SPCA for spay/neuter.

3 The joint total (10K+) double-counts animals transferred between ACC and SF SPCA.

4 The Live Release Rate formula for an Individual Agency = Adoptions + All Outgoing Transfers + Returned to Owner divided by Total Outcomes excluding Guardian Requested Euthanasia (unhealthy & untreatable) and dogs and cats that Died or were Lost in Shelter/Care.

5 The Live Release Rate formula for a Coalition = Adoptions + Returned to Owner + All Outgoing Transfers except those between ACC and SF SPCA (to avoid double counting) divided by Total Outcomes excluding Transfers between ACC and SPCA (to avoid double counting), Guardian Requested Euthanasia (unhealthy & untreatable), and dogs and cats that Died or were Lost In Shelter/Care.
